

3DEXPERIENCE®

STRUCTURAL ANALYSIS ENGINEER

3DEXPERIENCE USER ROLE

**ASSESS STRUCTURAL
INTEGRITY OF PRODUCTS
WITH POWERFUL
FINITE ELEMENT BASED
SIMULATION TECHNIQUES
TO GUIDE DESIGN
DECISIONS**

Design Simulation powered by proven world-class Abaqus Realistic Simulation technology in a seamless, intuitive, and modern user interface within the **3DEXPERIENCE®** platform.

Structural Analysis Engineer provides a broad environment to conduct structural static, frequency, buckling, modal dynamic response, and structural thermal simulation of parts and assemblies within the **3DEXPERIENCE** platform. It boosts innovation in product engineering and fosters collaboration in an intuitive environment using state-of-the art Abaqus simulation technology.
